In alignment with the SASB Standards, we report against the two sector standards that most closely reflect our business: Non-Alcoholic Beverages and Appliance Manufacturing. The following index provides KDP's key disclosures and references relevant sections within our [2024 KDP Impact Report](#). For additional detail, including assurance on data for the report, see the Data Table section of the [2024 KDP Impact Report](#).

For coffee and cocoa, we rely on verification or third-party certification programs. For our factory-based inputs, such as apple juice concentrate (AJC), high-intensity sweeteners and tomato paste, we report on the outcomes of audits via KDP's Supplier Rating System. Both approaches include audits and corrective action processes for major and minor non-conformities. Human Rights, Responsible Sourcing & Supply Chain Livelihoods , pages 21-24 Our Impact

Our 2024 priority beverage ingredients are: coffee, cocoa, corn, apple, AJC, high-intensity sweeteners and tomato paste. Key environmental risks for these ingredients include climate change, deforestation, agrochemical use and biodiversity. Our strategy to address these risks is shaped by our regenerative agriculture efforts. Key social risks include wages and benefits, child labor, forced labor, migrant workers and working hours. Our strategy to address these risks is shaped by our various responsible sourcing commitments and tools, e.g., audits, trainings and corrective actions. Task Force on Climate-Related Financial Disclosures (TCFD) Index

KDP is electing to use the TCFD Index as our framework to communicate our climate risks in our [2024 KDP Impact Report](#). Given these principles have been incorporated into the International Sustainability Standards Board (ISSB) standards, along with the rapidly-evolving reporting landscape, we are evaluating the reporting frameworks we will use for the 2025 KDP Impact Report.
